Hi Ms. Whitley,

Newton County had not started the testing process of the voting equipment. The only document we have responsive to your request is attached.

Thanks,

Dear Election Official:

We were sorry to hear about the disruption in election preparations caused by the announcement of the postponement of the L&A testing. We know that it means more stressful hours of work by you and your staff in preparation for a difficult election.

With apologies for adding more work at a difficult time, we are attempting to collect current and timely information on the problems encountered with the November 2020 database and/or the L&A Testing in the last several days. Please provide documents as described below:

1. All communications regarding problems encountered by your county or any county in the testing or review of the November 2020 database or L&A Testing.
2. All communications regarding the nature, rationale for, or impact of the delay in L&A Testing announced by the Secretary of State's office.
3. Documents regarding the impact and delays that your election preparations will experience as a result of the database replacement.
4. Communications relating to the replacement of the November database.
